

Brothers, Sisters, and Kin,

Today marks the 100<sup>th</sup> Anniversary of I.A.T.S.E. Local 634. Local 634 was chartered on July 1<sup>st</sup>, 1920 in Sudbury, Ontario. To commemorate this milestone, we had been planning for a special celebration but unfortunately it had to be postponed. So even though we cannot gather today for this momentous occasion, I wanted to recognize today as an important day in the history of our Local.

Today we can look back at our history and honor the Brothers, Sisters, and Kin who came before us. Their struggles and fight to be represented by a union, paved the way for all of us to be a part of the strong local we have today.

Future members of Local 634 will be able to look back at these years and see how we all came together to grow and strengthen this local even further. Over the past few years, the Local expanded to take in film technicians across Northern Ontario. Most recently, we have welcomed new members from the Ottawa region.

What started as a small Local has now grown into having almost 400 members. Where Local 634 stands today is a testament to the hard work of every member over the past 100 years. So here's to another 100 years of I.A.T.S.E. Local 634! Happy Canada Day!

In Solidarity,

Tiffany Boivin-Brawley, President

I.A.T.S.E. Local 634, Northern Ontario and Ottawa
